

Under absolutly no circumstances do I want any type of business or marketing call made to my phone for any reason whether it is an "established business relationship" or not. If I need to talk to someone I do or do not do business with "I" will initiate the call. Do not water down or weaken the Indiana Law under any circumstances. If I find out any politician in representing my area or state votes for the petition I will not only never vote for that politician again I will also boycott his party forever. I don't know how else to let you know how strongly I feel about this. I will proceed to contact my Bank and if they support this petttition I will immediatately find another Bank to do business with which does not support the petition. Thank you for your time and cooperation.
